Now I can't even see the results of his training
The goal is to WIN!! anything else is unacceptable

Don't brood so much! Before I knew it, we ended up competing with the rest of the class!

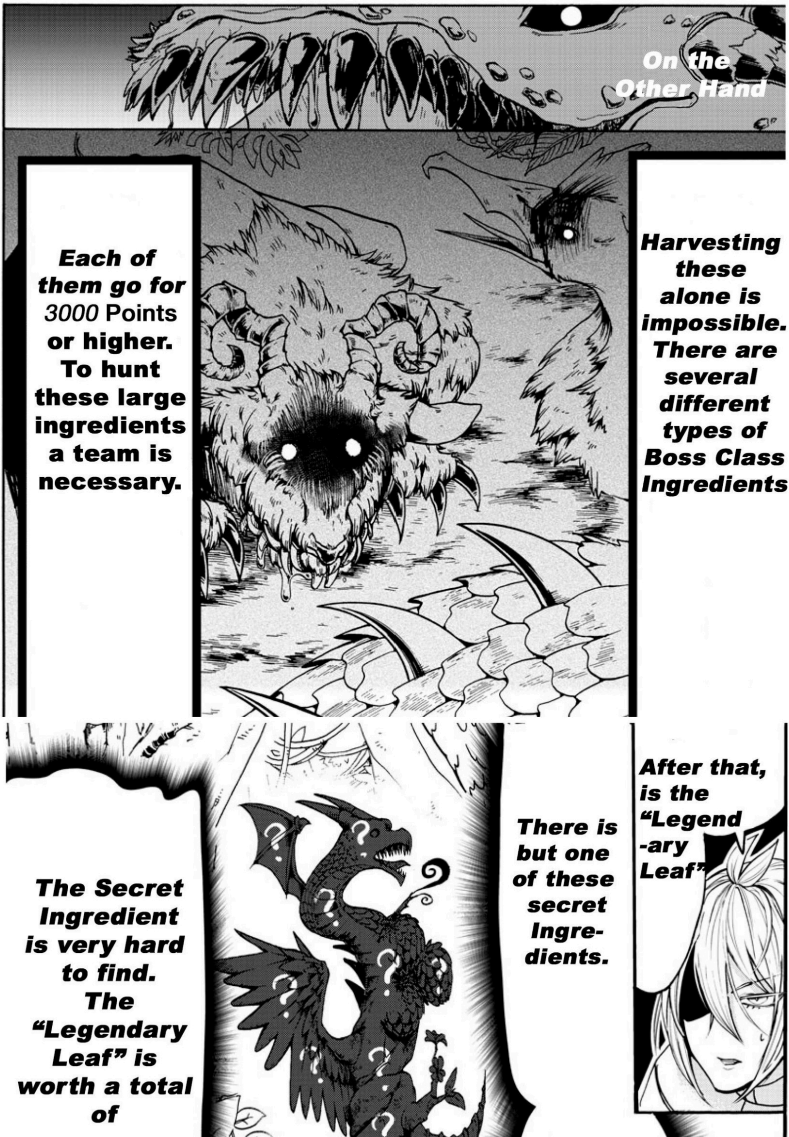
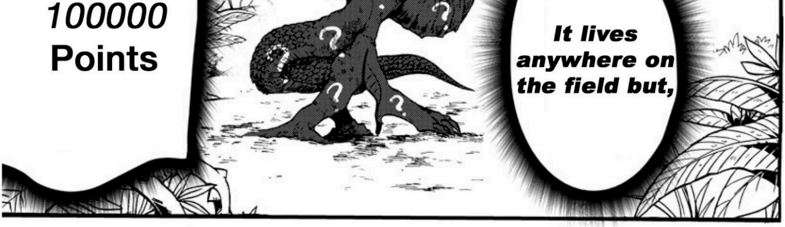
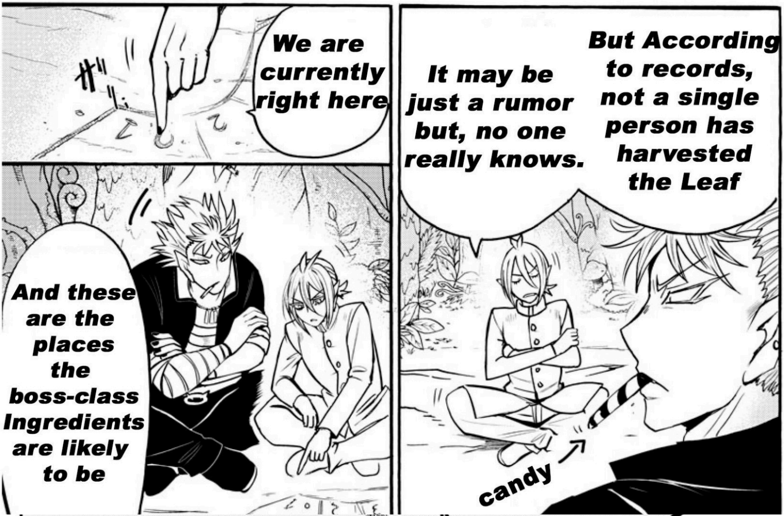
CHAMP
Last Harvest, student council president Amelie won with 59000 Points
As our team is made up of 2 people, to win, we're going to need at least 100000 Points
So, what we are hunting is the
Boss Class Ingredients
The Common Ingredients range from 10-150 Points
140 Points
90 Points
20 Points
5 Points
One person should be fine hunting them. The majority of students will be hunting these as there is alot to choose from



On the Other Hand
Harvesting these alone is impossible. There are several different types of Boss Class Ingredients
Each of them go for 3000 Points or higher. To hunt these large ingredients a team is necessary.
After that, is the "Legend-ary Leaf"
There is but one of these secret Ingre-dients.
The Secret Ingredient is very hard to find. The "Legendary Leaf" is worth a total of



It lives anywhere on the field but,
100000 Points



But According to records, not a single person has harvested the Leaf
It may be just a rumor but, no one really knows.

We are currently right here
And these are the places the boss-class Ingredients are likely to be

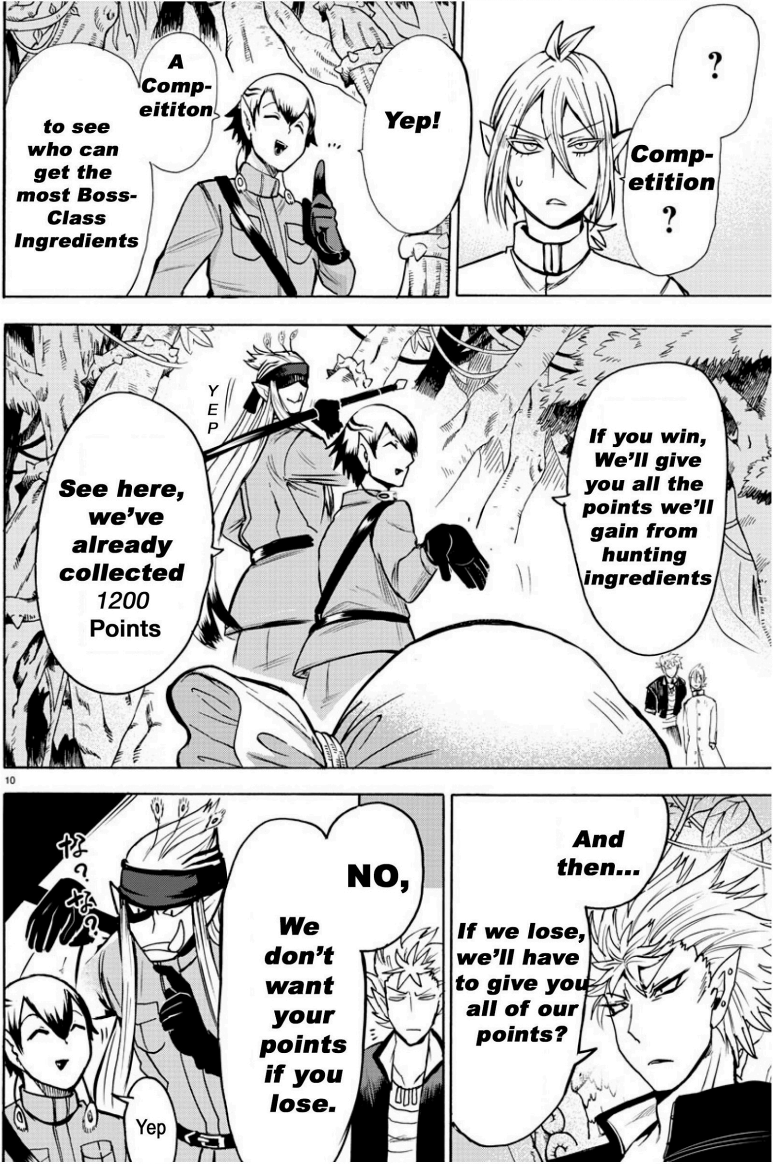
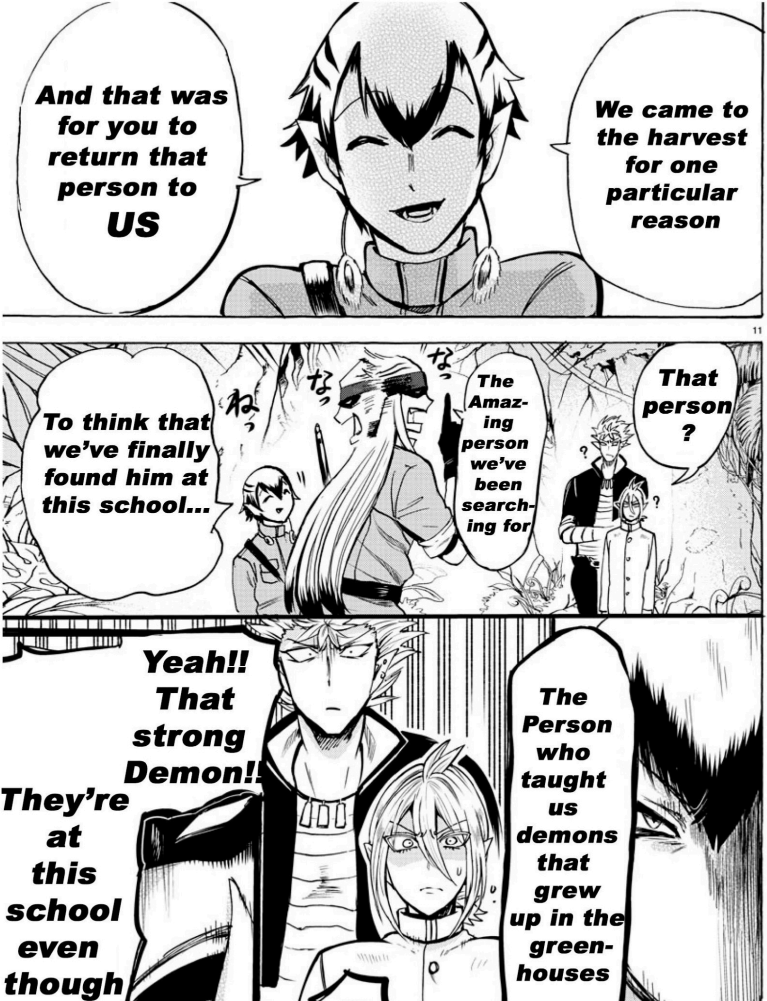
Hey ...
We over-heard your discu-ssion
Asmo-deus Alice and Sabnock Sablo.
How about a compe-tition between us four?
ピッ



? Competition ?
Yep!
A Compeititon
to see who can get the most Boss-Class Ingredients
If you win, We'll give you all the points we'll gain from hunting ingredients
YEP
See here, we've already collected 1200 Points
And then...
If we lose, we'll have to give you all of our points?
NO,
We don't want your points if you lose.
な？な？
Yep



We came to the harvest for one particular reason
And that was for you to return that person to US
That person?
